SECTION 1: CORE VALUES

MISSION

To prepare our students for a positive future in a multi-cultural world by uniting modern technology and learning with Lakota culture and spirituality.

PHILOSOPHY

Tiospaye Topa School serves the children of the Eastern Cheyenne River Lakota communities. Every individual is entitled to a quality education. Education is not the end, but only a means, to providing students with an opportunity to acquire skills and attitudes necessary to accomplish their desired goals of leading a meaningful and productive life. It also enables students to accept the responsibility of choosing their role within the Lakota or non-Indian society.

Recognizing the unique background of the communities, the school's primary purpose will be to promote positive self-image and achievements in equally important parts of the educational process.

The School's main goal will be to teach and assist students and communities in the learning and preservation of the traditional values of the Lakota. This includes, but is not limited to, language, culture, traditional and modern forms of Tribal governments, and political structures and processes.

Culture, to us, is a regaining of the self-esteem that identifies the leadership of our people throughout history and integrates it into the curriculum and classroom. Our continuing love for Tunkasila has brought us full circle with the environment and spiritual issues of our tribe. Parents, guardians, grandparents, and all community members will be encouraged to actively participate in the school's educational process.

VISION

- Students and staff are held in the highest regard. Their environment is safe and nurturing and encourages respect and caring for each other.
- Parents and guardians are involved as partners in the teaching/learning process and the contribution of elders is evident throughout the School.
- All stakeholders within the School community are involved in "politically-free" decision-making. A major focus is vision-driven problem-solving.
- Technology is valued and utilized as a resource for teaching and learning.
- Tiospaye Topa School is a drug-free teaching and learning environment.
- Tiospaye Topa School is a prejudice-free teaching and learning environment.
- Cooperation in learning is evident at all levels and includes cooperative learning, team teaching, and the integration of classes and subject areas.
- Teachers have high expectations for the success of every student.

4. KELO Closeline
5. TTS Facebook Page
6. School Messenger

Please refrain from calling the school, as this will tie up the lines. Only the Principal makes the decision to close school.

SECTION 7: SCHOOL SECURITY

7.01: SCHOOL ENTRANCES AND EXITS

Tiospaye Topa School makes every effort to ensure the safety and security of all of its students and staff. To ensure this safety and security, all outside doors will be locked at all times. Entrance to the school can only be gained through the front doors. All other

entrance ways should remain locked and secured at all times. Students and staff are not to prop open any outside doors at any time.

7.02: EMERGENCY EXITS

Students should be aware of all emergency exits as posted in each classroom.

7.03: LOCKERS

Each student in grades 8-12 shall be issued a locker and is responsible for that locker during the current school year. The students are advised against leaving money and/or other valuables in their locker. Large amounts of money or other items of personal value should not be brought to school. No food or drink is allowed in lockers. Students are to keep only their books and personal belongings of minimal value in their locker.

Lockers are school property and are subject to inspection at any time. Students have no expectation of privacy in school lockers.

7.04: CELL PHONES, MP3 PLAYERS, HEADPHONES, AND ELECTRONIC DEVICES

Students are not permitted to use cell phones, iPods, MP3 Players, headphones, handheld gaming consoles, and any other similar entertainment or communication devices while on campus. Any student who uses their cell phone on campus without permission from their teacher is subject to disciplinary action.

7.05: STUDENT USE OF SCHOOL TELEPHONES AND PERSONAL CELL PHONES

Students will not be allowed to make phone calls during school hours without administrative permission. Students will not be called out of class for in-coming calls. Students are not allowed to use cell phones on campus without permission from the supervising teacher. Any student who uses their cell phone on campus without permission from the supervising teacher is subject to disciplinary action.

7.06: SCHOOL SEARCHES OF STUDENTS

Students have the right to privacy and security against arbitrary invasion of their personal property by School officials. However, school desks and lockers and other equipment are the property of TTS, and there is no expectation of privacy in these areas. TTS, therefore, does not require permission to search lockers and desks, including canine searches. The student to whom the locker or desk is issued by the School may be present, if possible, but is not required to be present. The School has an interest in ensuring the health and safety of its students that must be balanced against students' expectations of privacy. This Policy is intended to balance the students' expectations of privacy against the School's interests in the safety of its students and personnel.

The School may conduct searches of student personal property when necessary to protect the health and safety of students and personnel. The School Board has determined that the presence of controlled substances on school grounds and threats from weapons has resulted in a real and serious threat to the health and safety of students and personnel that warrants additional student screening procedures upon entry to the School. To address this threat, the School may conduct random searches of student backpacks and bags upon entry to the School grounds and after exiting and re-entering the School building. The School may also install a metal detector at the entry doors to the School for the purpose of preventing the presence of weapons in the School and require all students to clear the metal detector. Any student who does not clear the metal detector will be required to search of their personal property and person prior to entry. Students and parents are notified with the adoption of this Policy that the School may conduct random search upon entry to the building to mitigate the serious and real risk posed by the presence of controlled substances or weapons in the school.

In order to maintain a safe and positive learning environment in the school, any student suspected of being intoxicated, under the influence of controlled substances or alcohol, and/or in possession of controlled substances, vaping or e-cigarette devices, or contraband may be searched by school officials, including personal items such as bags, purses, etc. The school reserves the right to search students and/or their personal property when a school official, a teacher, or staff member has reasonable suspicion that the student has violated the law or school policy, or poses a threat to the health and safety of students, based upon a reasonable suspicion that drugs, alcohol, or weapons are present in a student's personal property, or there is reasonable suspicion and an immediate need to secure evidence relating to a criminal offense (assault, drug offenses, etc.). If a student is suspected of using their cell phone or electronic device in violation of TTS policy, staff or administrators may reasonably search the contents of the student's phone for evidence of the specific violation.

Staff have the right to examine any personal property left unattended on school grounds and such activity does not constitute a search. This includes search of cell phones and other items including backpacks and purses.

Any student refusing to submit to a personal search will be turned over to law enforcement authorities.

TTS may, but is not required to, notify parent(s)/legal guardian(s) of any pending searches of students by school officials, to permit their involvement, unless such search is necessary for the immediate safety of staff and students, based upon a reasonable suspicion that a student is in possession of a weapon, a controlled substance, contraband, or any other item that could substantially endanger or harm the health or safety of students, faculty, staff, or visitors at TTS.

7.07: VISITORS

All visitors are to report to the main office. The building Principal and/or Acting Principal, at his/her discretion, have the authority to deny visitation to the school.

7.08: STUDENT USE OF MOTOR VEHICLES

1. Students will not drive, be in, or on, any vehicle during school hours.
2. Cars and cycles will be parked immediately when arriving at the school and will remain parked until school dismissal.
3. Safe and reasonable driving methods will be practiced within observable distance of the school.
4. Should the need arise, a student may be granted administrative permission to move his/her vehicle during the day.

7.09: SCHOOL BUSES

A large number of students are transported by school buses. This is a service that should be appreciated by all. Students should show their appreciation by good conduct and cooperation with the bus staff. Bus transportation **is a privilege**, not a right.

The bus driver has the same authority over students riding the buses as the teacher has in the classroom. The School has installed cameras on its buses and will review video of any incidents on the bus. All misbehavior incidents are required to be reported on an incident form and submitted to an administrator. Repeated problems may result in the student being suspended from the bus. The driver will make the TTS Bus Rules available to students, which is attached to this Policy as **Appendix 1** and incorporated herein.

7.10: USE OF BUILDING

Students are welcome to use school facilities with permission from their group club advisor AND administration. It is the advisor's responsibility to schedule the event or activity with the Principal. Use of the building must comply with the established Building Use Agreement. Copies of the Agreement are available upon request from office staff. Fees, etc., are subject to Board change.

The Principal may authorize the use of school facilities upon compliance with this Policy. The cost of using school facilities shall be listed in the Facilities Use Agreement.

1. Activities sponsored by student and school groups have preference over outside use of facilities.
2. Authorization and scheduling of facility areas must be approved by the Principal to ensure coordination of scheduling.
3. Any deposit required shall be returned to the sponsoring individual or organization

only after the facility has been inspected to verify it has been properly cleaned and not damaged. The School shall charge costs of repair or cleaning incurred against the deposit, and shall provide an itemized statement of any such charges to the sponsoring organization or individual.

4. The Facilities Use Agreement shall include a written release of any liability of the School by individuals or organizations utilizing school facilities.
5. The Principal shall be responsible for completion and monitoring of facility use agreements to assure proper coordination of facility use and scheduling needs of school-sponsored activities.
6. **School Dances.** A \$50.00 clean-up deposit will be made by the dance sponsor, as stated on the initial dance application. If the gym, lobby, and/or parking lot are not cleaned within 24 hours of the close of the dance, the \$50.00 deposit will be forfeited to the student council who will assume the responsibility of cleaning.

7.11: SPIRITUAL ACTIVITIES AND SCHOOL SCHEDULING

The school will try to avoid scheduling conflicting activities on any night upon which spiritual activities are likely to result in lowered attendance at such school activity events.

7.12: LOST AND FOUND

The School has a lost and found department in the front office. Please ask any of the secretaries for any item you may have lost. If you find an item, please turn it in to the office.

SECTION 8: STUDENT HEALTH

8.01: COMMUNICABLE DISEASE POLICY

Decisions regarding an infected student's ability to attend TTS will, at all times, be based on whether the student poses a direct threat to the health and safety of the TTS community. Students infected with communicable diseases have a right to education. When practicable, TTS will make reasonable accommodations for infected students if such accommodations eliminate any direct threat posed by the communicable disease at issue.

1. **Determination of Communicable Diseases.** The determination of whether a communicable disease poses a direct threat to the health and safety of the TTS community, as well as determinations regarding reasonable accommodations, shall be made by the Principal in consultation with the School, the Tribal Health Department, Indian Health Services, TTS legal counsel, and available medical evidence. Students who are determined to have a communicable disease which poses a direct threat which cannot be reasonably accommodated pursuant to this policy may appeal such determination. Such appeals shall be conducted pursuant to Section 4.16 of

this Policy.

2. **Individualized Education Plans.** Under certain circumstances involving students with chronic communicable diseases which pose a direct threat to the health and safety of the TTS community, students may be removed from class until an individualized education plan can be developed that is in accordance with the Individuals with Disabilities Education Act (“IDEA”) and its regulations. The Principal may require an Individualized Health Plan to be developed and in place for a student prior to readmission to the school. The Individualized Health Plan shall be developed by a team, including the Principal, one teacher, and the parents/guardians of the student to address the health condition.
3. **Absences.** Absences resulting from a communicable disease are excused absences for medical reasons. If the School determines that a parent/guardian is unable or unwilling to address a chronic health condition, the school may be required to report the case to the Tribal Health Department and/or Cheyenne River Sioux Tribe Child Protection Services to assist the family.
4. **Discrimination prohibited.** TTS shall not discriminate against any student on the basis of a communicable disease. TTS is committed to providing a learning environment free of discrimination. TTS staff will, at all times, maintain an atmosphere of respect. Under no circumstances will harassment based on an individual’s health status be tolerated. This includes persons with a communicable disease, perceived as being infected with a communicable disease, or student’s family members’ actual or perceived infection from a communicable disease. However, nothing in this Policy shall be construed as limiting TTS’s ability to take action which protects the health and safety of others so long as such actions are in accordance with IDEA and its regulations.
5. **Confidentiality.** In recognition that an individual’s health status is personal and private, TTS shall handle information regarding students with suspected or confirmed communicable disease in accordance with all applicable laws regarding confidentiality of student health records, including the Family Educational Rights and Privacy Act (“FERPA”). Such records shall be placed in a locked and secure location and shall only be accessible to TTS management personnel who have a legitimate work related need to know, such as emergency medical personnel. Unlawful disclosure of confidential health records will result in immediate disciplinary measures, up to and including termination.

8.02: CONTROL GUIDELINES FOR COMMUNICABLE DISEASES

TTS has established the following infection control guidelines applicable to students for the purpose of protecting the health and safety of the TTS community. These guidelines will

be maintained and implemented in cooperation with the Tribal Health Department and Indian Health Services.

1. Any person who knows or suspects that an individual has a communicable disease or otherwise believes that there has been an incidence of exposure to a communicable disease shall report the information to the Principal. It is improper for any student who has actual knowledge or reasonable grounds to suspect that he/she is infected with a communicable disease to willfully expose or infect another with such a disease or to knowingly perform an act or engage in conduct which exposes or infects another person with such a disease. If the Principal receives information that an employee or a student is afflicted with a communicable disease that may pose a direct threat to health and safety, the Principal will confer with the parent/guardian to assess the situation. The Principal may direct the parent/guardian to obtain a health examination of the student in order to ensure that the health and safety of the TTS community is protected.
2. If possible, all students who have open sores or other physical conditions by which others may be infected are required to refrain from direct contact with others and refrain from handling equipment until the condition is resolved. Any such physical conditions that can be covered with adhesive bandages that repel water and are designed to prevent potentially infectious material from being shed must be used.
3. If the communicable disease at issue poses a direct risk to the health and safety of the TTS community, or there has been possible exposure, the Principal shall make a report to the Tribal Health Department as soon as possible.
4. In cooperation with the Tribal Health Department, the Principal shall notify employees, students, and others of their possible exposure to the communicable disease. The notice will include a fact sheet or similar information on possible communicable disease exposure.
5. If any student or employee is suspected of having a communicable disease that could be detrimental to that individual's health, or the health of others in the TTS community, that student or employee may be sent home until the communicable disease no longer poses a direct threat, or until the disease can be reasonably accommodated. Such determinations shall be made in accordance with this policy.
6. In cooperation with the Tribal Health Department, the Principal will determine when a student or employee may be readmitted to the TTS. As a condition of continued or renewed re-admittance, TTS may require a statement from a student or employee's physician stating that the individual is in suitable condition to attend school.
7. No child having a contagious or infectious disease or living in a house where such disease or condition exists may attend school until permitted to do so

by the school Principal after consulting with the Indian Health Service or the Tribal Health Department. Head lice are considered a communicable disease for purposes of this section, and the student may attend school only when permitted by the Principal.

8.03: HEAD LICE POLICY

The goals of this policy are to:

1. Identify infested individuals and see that they are properly treated.
2. Break the cycle of-re-infestations.
3. Decrease school absences for students.
4. Provide information to students, parents, and teachers regarding appropriate management of head lice information.

The policy of the Tiospaye Topa School regarding head lice is that no student will be dismissed during the school day for live lice or nits. If a student is reported to have head lice, the School Nurse/Administrator will do the following:

1. The student will be examined to determine if there is an active infestation; live lice or many nits less than one-quarter inch from the scalp. (Due to the rate of hair growth, nits that are farther away from the scalp will not hatch or have already hatched).
2. If the School Nurse/Administrator determines that there is an active infestation, the student's parent/guardian will be notified and the Principal may require the student to leave the school until it is contained.
3. It is the responsibility of the parent to make arrangements with the School Nurse/Administrator for the student to be examined before re-entry into school. The parent must accompany the child or call for this examination so that the School Nurse/Administrator can check for the presence of live lice, review treatment, and provide any needed instructions or support.
4. Only one (1) day will be allowed as an excused absence for the purpose of treatment. More time out of school than this will be considered unexcused absences, due to parental/guardian non-compliance, and will be referred to the Principal for follow-up. It is recognized that no child should routinely be excluded from school due to head lice, and parents will be encouraged to treat promptly if needed, and return the child to school the next day.
5. Chronic or repeated head lice infestations will be referred to the Department of Social Services for consultation. In the case of repeated head lice infestations, the child may be excluded from school as long as the case is active (live lice), and until effective treatment has been provided. At this time, a report will be filed with the Cheyenne River Sioux Tribal Courts in accordance with the Tribal Children's Code. School attendance is a parental responsibility and parents must be held accountable.
6. Parents should examine all members of the family for head lice, and all close

contacts should be notified.

7. The School Nurse/Administrator will provide educational materials and resources to parents/guardians, students, and school staff regarding head lice infestations, management, and treatment.

Rationale:

- A head lice infestation is a mild health condition without serious health consequences and should not be considered as a major health threat to those infested or those potentially exposed.
- The most effective point of control of head lice is the head hair of those affected and others in the home.
- Head lice screening programs have not been proven to have any effect on the incidence of head lice in the school setting over time.
- No healthy student should be excluded from or allowed to miss school time because of head lice.

School Protocol:

- An informational bulletin regarding head lice infestation and management may be sent home with each student at the beginning of the school year.
- If a case of head lice is confirmed, the School Nurse/Administrator may conduct a classroom check or will check individual students as she deems necessary.
- Siblings of any positive cases may be checked, plus the sibling's class if he/she proves positive and the School Nurse/Administrator deems it necessary.
- The School Nurse/Administrator may send a letter to parents notifying them of a case of head lice if she/he deems it appropriate. The School Nurse/Administrator will notify the Principal if this is done.

* Tiospaye Topa School does not provide medicated products for the treatment of head lice. The parent is advised to contact a health care provider for recommendations.

8.04: VACCINATIONS

- a. The parent(s) of each child admitted to school shall present certification from a licensed physician or authorized representative of the Indian Health Service that the child has been immunized against poliomyelitis, diphtheria, pertussis, rubeola, rubella, mumps, hepatitis B, Chicken Pox, and tetanus. Any student entering the sixth grade, or who is older than eleven years old is required to be immunized with one dose of Tdap vaccine (tetanus, diphtheria, pertussis), and one dose of MCV4 vaccine (meningococcal ACYW). If a child is 10 years old when entering the 6th grade they have 45 days after their 11th birthday to be vaccinated.

b. Athletics and Extra-Curricular Activities

Students who attend TTS who participate in any athletic program or face to face extracurricular activity will be required to follow the guidelines set forth by TTS, including health, attendance and eligibility requirements for activities. Students ages 12 and older are required to show proof of COVID-19 vaccination as a condition of participation. The requirement for a COVID-19 vaccination is effective starting on January 1, 2022. All students 12 and older are required to provide proof of vaccination to the Principal's Office. A copy of the vaccination record will be maintained as part of the student's health records.

- i. Any student 12 years or older who has been advised by a health care professional not to receive a vaccine due to an underlying health condition and a risk presented from the vaccine to the student's health, may file a written request for a reasonable accommodation with the Principal's Office. The student shall file the request, along with a statement from a health care professional that the student has been advised not to receive the vaccine due to a risk posed to the health of the student. The Principal, in consultation with the School Administration, will determine whether a reasonable accommodation can be granted based on a case-by-case evaluation of whether the student can perform the essential job functions, the risk to the health and safety of staff and students of granting the accommodation, and the financial and institutional impact of granting an accommodation. Unless granting the exemption would pose a significant difficulty or expense to the School, an accommodation will be granted. A student whose request for accommodations is denied may file a written appeal of the Principal's decision with the Principal's Office within five (5) days of the denial in writing. The School Board will review the appeal in writing and make a decision on the appeal based on the written record on file. No in person hearing shall be held on such appeals.
- ii. Any student who has a spiritual/religious objection to vaccination based on a sincerely held spiritual/religious belief, observance, or practice, may file a request for a spiritual/religious exemption in writing with the Principal's Office. Based on the information provided in the request for religious exemption, the Principal will determine if granting an exemption would pose an undue hardship on school operations on a case by case basis. Unless granting the exemption would pose an undue hardship on School operations, the exemptions will be granted. A student whose request for accommodations is denied may file a written appeal of the Principal's decision with the Principal's Office within five (5) days of the denial in writing. The School Board will review the

appeal in writing and make a decision on the appeal based on the written record on file. No in person hearing shall be held on such appeals.

Students who are on an IEP or Section 504 Accommodation Plan may be scheduled for a manifestation determination meeting as follows:

1. NOTE: Under the new reauthorized IDEIA '04 (HR 1350, effective July 1, 2005): Unless a disciplinary infraction is the "direct result" of a student's disability, the student will be disciplined in the same manner as non-disabled students. Any infraction involving drugs, weapons, or serious bodily injury can result in the student being removed from the classroom for up to 45 days, without the case being required to go before a hearing.
2. An IEP or Section 504 Team conducts a manifestation determination no later than 10 school days after the disciplinary decision has been made to change placement to ascertain whether misbehavior is the result of a disability and whether the current IEP or Section 504 Accommodation Plan is appropriate for the following actions or conditions such as:

It will be noted that the Anti- Bullying Policy shall be implemented. The staff person taking a complaint from a parent/guardian has 24 hrs. to follow up and report back to person making the complaint.

Parents/Guardians may not have access to confidential information about the target student or other students involved in a bullying incident, but will be provided with a copy of School Policies, and a plan of intervention for the student.

e. Additional Procedures for Reporting Bullying from Other Schools.

If a student from another school bullies a TTS student such as at a school-sponsored athletic event, the procedures for intervention and notice are the same as set forth in this section above. In addition to the reporting procedures set forth above, the TTS Staff member shall report the incident to the Principal or designee, who shall report the incident to the administration of the other School. If the incident occurred at a SDHSAA event, the Principal or designee shall report such incident to the proper SDHSAA authorities. The Principal shall ensure that all steps are followed when such an incident is reported and to make contact with all

responsible parties and the proper authorities. If such an incident occurred at a SDHSAA or school-sponsored athletic event, a copy of the incident report shall be given to the Athletic Director.

7. Parent Notification

The parents and or/guardians of both the student who was bullied (target) and the student (aggressor) will be notified of all incidents of bullying that involve their student within 24 hours of the incident being reported to School staff. The parents and or/ guardian of the student who was bullied will also be notified generally of the action taken by the school to prevent any further acts of bullying or retaliation toward their child.

8. Protecting Students and Staff Who Report

The administration and school staff will support students and coworkers making reports and protect them against any potential retaliation for making such a report.

Retaliation against students for reporting bullying is prohibited. Students who retaliate against others will receive appropriate consequences as outlined in the student discipline policy. Students may report bullying anonymously. No disciplinary action will be taken solely on the basis of an anonymous report unless substantiated by further investigation. False accusations of bullying against others are not allowed and will result in consequences outlined in our student discipline policy. When interviewing the student accused of bullying or other students about bullying, do not name the student who reported if possible. In some cases, however, the bullying may be too severe to protect confidentiality. In these cases, assure the student that the adult will do everything they can do to protect them from retaliation.

9. Staff Education and Responsibilities

Each year, our school will provide the Anti-Bullying Policy to all staff. Staff will be trained annually on the plan and prevention activities chosen by our school. The training will cover ways to prevent and intervene in bullying, information about the complex nature of bullying, research on bullying and students who may be more vulnerable to bullying by others, and information on cyber and internet safety.

Staff at our school will do the following things to prevent bullying and help students feel safe at school:

- Closely supervise and interact with students in all areas of the school, bus, and playground and before, during and after school sponsored activities including athletic events.

- Watch for signs/signals of bullying and (preceding bullying when possible) stop it when it happens
- Incorporate lessons that support social and emotional skills
- Teach students about bullying
- Respond quickly and sensitively to all reports of bullying
- Take families' concerns about bullying seriously
- Complete all documentation within 24hrs of an incident being reported (incident forms and NASIS)
- Report suspected bullying to the administration

10. Family Education

Each year, our school will provide families with information about the Anti-Bullying Policy, prevention activities and how families can reinforce anti-bullying at home and in the community. Students and their parents/legal guardians will be made aware of the policy at the beginning of the school year and required to sign off that they have read and understand the policy. Families will be provided with information throughout the year in regards to the Anti-Bullying Policy, ways to prevent bullying and working with school staff to create a safe school environment through Parent Involvement Nights, School Newsletters, phone calls and conferences.

11. Policy Dissemination

This policy shall be disseminated annually to all school staff, students, and parent/s or legal guardian/s during functions such as Parent Involvement meetings, Parent-Teacher Conferences, other school sponsored activities/programs, and other written communications. A parent reporting form for bullying is attached to this Policy as **Appendix 2**. The Policy will also be posted on the school's web site. Additionally, a written or verbal statement will explain that this Policy applies to all acts of bullying that occur on school property, at school sponsored functions, or on any form of school transportation. The Principal or his/her designee shall develop an annual process for discussing with the students and school staff the School policy on bullying. All employees, students, and parents/legal guardians will sign a written statement indicating they have received, read, and understood the policy and agree to abide by the provisions of the policy. Failure to abide by this policy or neglecting to report acts of bullying will result in administrative action.

9.12: POSITIVE BEHAVIOR INTERVENTIONS AND SUPPORT

There are three School-wide behavioral expectations at the Tiospaye Topa School:

1. Be Safe
2. Be Respectful
3. Be Responsible

Schools are successful when they help children grow academically, socially, and emotionally. For this to happen, a safe environment that is supportive and conducive to growth is imperative. The School achieves this goal by setting forth clear social and behavioral expectations and directly teaching students about those expectations to create a positive atmosphere for optimal learning. To that end, the School uses Positive Behavior Interventions and Supports (PBIS). The PBIS has four components:

1. A matrix of behavioral expectations
2. Lesson plans to teach students the behavioral expectations
3. An acknowledgement and reinforcement system
4. Behavioral infraction notices

Through PBIS, students are taught school-wide expectations and have opportunities to practice them. Staff members teach what behaviors are expected in the hallways, cafeteria, bathroom, playground, classroom, bus, before school, after school, and at assemblies.

The PBIS system makes use of consistent positive rewards to celebrate students' success. Students who are "caught" following the behavioral expectations are reinforced with Thunderhawk Tickets. These tickets will then be used in weekly drawings for prizes and monthly celebrations for students who do not receive behavioral referrals.

While the PBIS system emphasizes appropriate behaviors, some students may still violate School rules. In these situations, students will receive warnings, time outs, detention, referrals to the Principal's office, or other disciplinary action as necessary.

9.13: STUDENT CONDUCT & DISCIPLINE PROCEDURES

Students are expected to conduct themselves in a respectful manner while at school or at school related activities. The student is responsible for learning the following rules that govern the activities of the School environment. Unacceptable behavior by the student will result in immediate disciplinary action by the Principal or the Principal's designee. The School rules are in addition to the rules below, and are hereby incorporated by reference in the respective Student Handbook and made a part of these policies. Students are responsible for following those rules as well.

Minor School Rules:

1. Students will follow good health and safety practices at all times, at school and at school related activities.

2. Students will attend and be on time for all scheduled classes.
3. Students will return home at the end of the school day.
4. Students are responsible for care and cleanliness of school property. Any student committing minor vandalism (writing with pencil or other utensil on school property, creating a mess, destroying school property, etc.) may be subject to detention, including cleaning up and/or fixing the vandalism.
5. Students will adhere to all reasonable requests. Students are expected to follow all teacher/staff directions in class, in hallways, and on all school premises. Any student who fails to follow the directions or requests of a school staff member may be required to serve detention.
6. Students will adhere to the school dress code. Any student in violation of the dress code may be required to change clothes either brought from home or given from the counselor.
7. Students will adhere to the internet usage and social media policy. Students found using any social networking site (including Facebook, Bebo, etc.), downloading music onto computers, or playing games during work time may serve detention and may have internet privileges limited or revoked.
8. Students shall not engage in inappropriate displays of affection. Inappropriate displays of affection include kissing, groping, excessive hugging, giving or receiving hickies, or any vulgar acts. Holding hands and short hugs will generally not be regarded as inappropriate.

All minor rule infractions will result in disciplinary action appropriate to the age, circumstances, and educational level of the student. The matrix of disciplinary action for infractions is set forth in this Policy. The goal of this process is to educate the student on all school rules and their consequences and to teach proper behavior.

Major School Rules:

1. Students will neither cause damage to nor steal school or another's property.
2. Students will not endanger the life, health, or safety of themselves or others while at school or at school related activities.
3. Students will not come to school under the influence of any drug or alcohol. If a student is suspected of being under the influence, the Principal and

security will be notified to investigate. If school officials have reasonable suspicion that a student is intoxicated or under the influence, Public Safety Officers will be notified and the offending student may be removed from the school premises to ensure the school campus is safe for all teachers and students.

4. Students will not engage in any gang related activity including but not limited to writing, paraphernalia, insignia, signals, graffiti, and phrases or related clothing. Violation of this Rule will be considered a safety risk and a violation of the Tribal code. Principal may notify Public Safety Officers and report as gang-promotion.
5. Students will remain on the school campus during the school day until and unless dismissed.
6. Students will not violate the School Bullying Policy.
7. Students will not instigate or participate in a fight while at school or school related activities. Any student involved in the instigation of a fight may also be subject to criminal prosecution for assault. Any student witnessing, recording, or encouraging a fight may also face discipline or prosecution. The school security and the Principal will attempt to determine the instigator(s) in the incident, who may be subject to more severe discipline. In the case of a fight, the school will hold students and contact Public Safety immediately to remove the student(s) from the premises. If a student leaves the premises after participating in a fight, Public Safety will be advised and the student will not be allowed to return to school until they have met with Public Safety.
8. Students will not smoke cigarettes or possess any tobacco, e-cigarette, or vaping products while at school or at school related activities. Lighters are considered contraband for students and not allowed in the school. No student, regardless of age, will be allowed to possess or use tobacco, e-cigarette, or vaping products on school grounds.
9. Alcohol or illegal drug possession and use are strictly prohibited while on school grounds or school related activities. TTS does not permit the possession or use of CBD products or any products containing THC, unless the student has a medical prescription and the medication is dispensed by authorized school personnel as with all other prescription medications. The following may also be considered prohibited drugs due to their history of illegal use or danger to students' health: air duster, computer cleaner, paint

thinner, synthetic drugs, etc. The following may be considered an illegal drug especially if the student is suspected of using inappropriately or for huffing: Any aerosol cans (including hairspray), glue, cleaning supplies, etc.

10. Students will not carry or use any weapon or object that can be used as a weapon including guns (of any kind including BB gun or pellet gun), knives (including kitchen and pocketknives), brass knuckles, or any other object that is used with intent to cause bodily harm.

Major rule infractions are those behaviors which endanger the life and safety of others or the offending student. These also include damage to private or public property. All major rule infractions will result in disciplinary action appropriate to the age, circumstances, and educational level of the student. goal of this process is to educate the student on all school rules and their consequences and to teach proper behavior, and to prevent and remedy threats or damage to the health and safety of students, staff and the School. In addition, the School Principal shall offer counseling to the Parent and the student.

9.14: TIOSPAYE TOPA RESPECT AND PROTECT POLICY OFFENSES & CONSEQUENCES

This Matrix provides a guide to the consequences for violations of School Policies by students. However, the School reserves the right to impose any form of discipline necessary to protect the health and safety of students and employees. In the event student conduct poses an immediate threat to the health and safety of any student, employee, or visitor at the School, or results in bodily injury to any student, employee or visitor, the School may suspend or expel the student in accordance with the suspension and expulsion procedures set forth in Section 10.

10.01: IN-SCHOOL DETENTION POLICY

The Detention Policy shall apply only to students in grades K-12. All students placed in detention will be referred by administration.

Students spending time in detention should understand they are responsible for their own conduct and behavior while attending school. It will be the responsibility of the student to make up any work missed while serving time in detention.

The School will have a detention room for students who are in violation of the following rules:

1. Three (3) tardies in one day shall result in one (1) day of lunch detention.
2. Other violations as determined by the Administration that may warrant time in detention in accordance with.

Detention Room Rules: While a student is serving detention he/she:

1. Will be seated away from other students
2. Will be provided school work
3. Will be served lunch in the detention room

4. Will not be allowed to sleep, draw, visit, or groom themselves
5. Will cooperate with the detention room supervisor. Failure to cooperate with the detention room supervisor will be considered a Level 3 offense and will result in OSS (Out-Of-School Suspension)

Student detention will be for seven (7) full class periods, lasting until the period on the following day which the infraction occurred. The student must serve a total of seven (7) periods of detention.

The student will be expected to make a formal apology (written and/or verbal) to the staff member where the violation occurred.

If a student in detention has a game or an away event, the student(s) participation and travel will be determined by TTS Administration, but must make up the time when he/she returns. For example, if a student serves periods 1, 2, and 3 in detention and then needs to leave for an event, the following day, the student will serve periods 4, 5, 6, and 7 for a total of seven (7) full class periods.

Four (4) suspensions from detention will result in referral to the school board.

10.02: SUSPENSION POLICY

There are two forms of suspension: short-term suspension and long-term suspension.

1. **Short-Term Suspension.** Short-term suspension is a suspension from regular school classes and activities for a term not to exceed (ten) 10 days.
2. **Long-Term Suspension.** Long-term suspension is a suspension from regular school classes and activities for a term exceeding (ten) 10 days, as determined by TTS Board action (refer to page 12).

10.03: DUE PROCESS

Every student is entitled to due process in every instance of disciplinary action for alleged violation of school regulations.

10.04: OUT-OF-SCHOOL SUSPENSION HEARING PROCEDURES

Hearings before the School Board shall be held only in cases of out-of-school suspension lasting longer than ten (10) school days. A hearing shall be held within ten (10) calendar days of the date of the incident unless the school shows good cause for scheduling the hearing at a later time.

Written notice of the hearing date, time, place, and procedural hearing rights will be made to the student and the student's parent or legal guardian at least five (5) days prior to the hearing.

10.05: STUDENT RIGHTS AT OUT-OF-SCHOOL SUSPENSION HEARING

Failure of the student and the student's parent or legal guardian to appear for the scheduled hearing at the scheduled time, time and place effectively waives the right for any further hearing and the expulsion shall become final.

4. There shall be no appeal of the Tiospaye Topa School Board's decision regarding an expulsion. It is a final decision of the Tiospaye Topa School Board.
5. Through established procedures outlined in this section, a student may be expelled from school for conduct that disrupts the educational process or endangers the health or safety of the student, her/his classmates, or school personnel. Any student found on TTS property with a weapon of any kind, including but not limited to knives, guns or explosives, may be immediately removed from school. A student who has been expelled for a weapons violation will be expelled for not less than one semester or trimester from the date of the expulsion, and must complete a re-admission threat assessment and evaluation, and complete any recommended counseling. The School Board may modify a weapon-related expulsion on a case-by-case basis.
6. The School Board shall issue its decision in writing. If the School Board decides not to expel a student, the School Board may place conditions on the re-admittance following the suspension from school including but not limited to:
 - a. A Behavior Plan

SECTION 12: EDUCATING STUDENTS WITH DISABILITIES

12.01: “CHILD WITH A DISABILITY” DEFINED

The term “Child with a Disability” means a child:

1. With cognitive impairment, hearing impairments (including deafness), speech or language impairments, visual impairments (including blindness), serious emotional disturbance (referred to in this title as `emotional disturbance'), orthopedic impairments, autism, traumatic brain injury, other health impairments, or specific learning disabilities; and
2. Who, by reason thereof, needs special education and/or related services.

12.02: PROCEDURAL SAFEGUARDS NOTICE

A copy of the procedural safeguards available to the parents of a child with a disability must be given to the parents only one time a school year, except that a copy also must be given to the parents:

1. Upon initial referral or parent request for evaluation;
2. Upon receipt of the first State complaint under and upon receipt of the first due process complaint in a school year;
3. In accordance with the discipline procedures (on the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct, the LEA must provide the parents the procedural safeguards notice; and
4. Upon request by a parent.

Copies of Referral forms and Notices are available from the School Special Education Director to all parents and students.

12.03: STUDENT EVALUATIONS AND ASSESSMENTS

1. **Initial Evaluations.** Either a parent/guardian of a child or a public agency including the School may initiate a request for an initial evaluation to determine if the child is a child with a disability.
 - a. The initial evaluation must be conducted within 60 days of receiving parental/guardian consent for the evaluation; and

- b. Must consist of procedures to determine if the child is a child with a disability and to determine the educational needs of the child.
- 2. **Reevaluations.** The School will re-evaluate a child with a disability:
 - a. If the School determines that the educational or related service needs, including improved academic achievement and functional performance, of the child warrant a reevaluation; or
 - b. If the child's parent or teacher requests a reevaluation.
 - c. A reevaluation:
 - i. May occur not more than once a year, unless the parent and the School agree otherwise; and
 - ii. Must occur at least once every 3 years, unless the parent and the School agree that a reevaluation is unnecessary.

The School will ensure that assessments and other evaluation materials used to assess a child are provided and administered in the child's native language or other mode of communication and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally, unless it is clearly not feasible to provide or administer.

A parent/legal guardian is permitted to request a reevaluation of their student child at any time. If the parent insists upon additional testing, the Case Manager shall work with the parent through the established resolution process to seek resolution of the disagreement between school and parent.

A parent/legal guardian is also permitted to request an independent evaluation. All requests made for an independent evaluation are forwarded to the Principal. The Case Manager sends a packet of information to the parent requesting such independent evaluation which includes, but is not limited to, where an independent evaluation may be obtained, the required qualifications of an independent examiner, the eligibility for specific disability categories, and the maximum allowable charges for specified assessments to eliminate unreasonably excessive fees, including travel costs. The Principal can make any one of the following decisions once an independent evaluation is requested: wait for the parent to act on the request, or request the parent/legal guardian to enter into the conflict resolution process. If an independent evaluation is completed by the parent/legal guardian, the Multidisciplinary (MDT) Team shall include that information in with all other information in developing or amending the student's IEP.

12.04: SECTION 504 PLAN

Section 504 is the part of the Rehabilitative Act of 1973 that applies to individuals with disabilities. This act protects the civil rights of persons with disabilities. A free appropriate public education is one provided by the elementary or secondary school that includes general or special education and related aides and services that:

- 1. Are designed to meet the individual educational needs of an eligible student with

- a disability as adequately as the needs of an eligible student who is non-disabled are met; and
2. Are based on adherence to evaluation, placement, and procedural safeguard requirements.

Section 504 of the Rehabilitation Act of 1973 protects students from discrimination based on their disability status. A student is eligible for accommodations under Section 504 if the student has a mental or physical impairment that substantially limits one or more of a student's major life activities that impacts education. "Major Life Activities" include functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working. When a condition does not substantially limit a major life activity that impacts education, the student does not qualify for protection under Section 504. Principals are responsible for initiating and monitoring of any 504 plans for students in their learning circle/building. Copies of Referral Forms and Notices regarding Section 504 are available to all parents and students from the School Special Education Director's Office.

12.05: STUDENTS SERVED UNDER THE INDIVIDUALS WITH DISABILITIES EDUCATION ACT (IDEA)

To be eligible for services under the TTS Special Education Program, a child must have a disability that adversely affects educational performance and requires specially designed instruction as defined in the "Child with a Disability" definition of this Policy.

When any parent, child, family member, public or private agency, school personnel or screening refers a child for the TTS Special Education Program, the Child Study Team shall conduct a meeting in order to complete any additional required fact-finding, to brainstorm, and to establish a plan and time line with specific direction to appropriate staff to address whether further evaluation is needed. The Child Study Team shall be comprised of the following: Special Education Coordinator/Director, Principal, Counselor, Special Educator, one General Educator, and the parent/legal guardian and any person the parent/legal guardian wishes to bring to the meeting. The parent must be notified by the Special Education Coordinator/Director of the referral if the parent did not make the referral. If further evaluation is needed, the parent's consent must also be obtained to complete further evaluation. Note, if the child is emancipated due to age or otherwise, the child must also be notified and included in the process and all rights possessed by the parent in this process now become the rights of the adult student. The parent must remain involved after the student obtains age eighteen (18) if the parent has obtained a guardianship over the student.

If further evaluation is not warranted, the Child Study Team will work together to provide other services for the child. The parent/legal guardian and/or child must be notified of the reasons the child will not be considered for the TTS Special Education Program. If further evaluation is warranted, the information shall be turned over to the Multidisciplinary (MDT) Team. The Multidisciplinary (MDT) Team shall consist of a Special Educator, the Special Education

Coordinator/Director, the Principal, one General Educator and the parent/legal guardian of the referred child and any person the parent/legal guardian wants to be present. The Case Manager shall complete an Evaluation Plan for the child. The Evaluation Plan may include, but is not limited to: medical history; health status; motor skills, speech/language or hearing evaluations; classroom observations; family history; psychological information; all academic achievement information including assessment results; and educational history.

The MDT Team shall determine whether a child is eligible for services under the IDEA under an Individualized Education Plan (IEP) based upon the results of the Evaluation Plan. The MDT Team is required to make the following determinations, all of which are required to determine a child is eligible for IDEA services and an IEP:

1. Whether the child has a disability;
2. Whether that disability adversely affects the child's educational performance;
3. What specific special education and/or other related services are required based upon the findings in 1 & 2; and
4. If the child is eligible under 1 & 2, and based upon the determination in 3, what placement is the least restrictive environment for the child.

The parent shall receive prior written notice ten (10) days in advance of any Multidisciplinary Team (MDT Team) meeting and prior to any evaluation. The notice shall be conveyed to the parent in a language they can understand (orally or in writing, but when orally notations must be made regarding the oral notification), shall include a description of the proposed evaluation, and an explanation of why the evaluation is taking place. All of the documentation generated throughout the entire process shall be held in the child's student file confidentially. All communication with the parents (whether oral or written) shall be documented in the student's file especially with regard to attempts to notify of meetings, consents, and additional information regarding the student's needs.

If the parent refuses to consent to evaluation, TTS may still be required to provide special education services. The Special Education Coordinator/Director shall develop a process by which to resolve issues between the school and a non-consenting parent. The parent may also refuse the special education services proposed by the MDT Team. When this occurs, the Special Education Coordinator/Director shall develop a process by which to resolve the issues between the school and the non-consenting parent.

12.06: INDIVIDUALIZED EDUCATION PLAN (IEP)

The term Individualized Education Plan or IEP means a written statement for each child with a disability that is developed, reviewed, and revised in a meeting. For every child eligible under the IDEA, the TTS Special Education Department shall ensure an IEP is in place, and is reviewed not less than annually. An IEP must include:

1. A statement of the child's present levels of academic achievement and functional performance;

2. A statement of measurable annual goals, including academic and functional goals designed to:
 - a. Meet the child's needs that result from the child's disability to enable the child to be involved in and make progress in the general education curriculum; and
 - b. Meet each of the child's other educational needs that result from the child's disability;
3. For children with disabilities who take alternate assessments aligned to alternate achievement standards, a description of benchmarks or short-term objectives;
4. A description of:
 - a. How the child's progress toward meeting the annual goals will be measured; and
 - b. When periodic reports on the progress the child is making toward meeting the annual goals (such as through the use of quarterly or other periodic reports, concurrent with the issuance of report cards) will be provided;
5. A statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the child, or on behalf of the child;
6. A statement of any individual appropriate accommodations that are necessary to measure the academic achievement and functional performance of the child on School assessments; and if the MDT Team determines that the child must take an alternate assessment instead of a particular regular School assessment of student achievement, a statement of why the child cannot participate in the regular assessment and why the particular alternate assessment selected is appropriate for the child.

12.07: EDUCATIONAL PLACEMENT

Once it is determined that a child is eligible for the TTS Special Education Program, TTS shall provide an education through the least restrictive environment. The cost of the TTS Special Education Program shall be borne by TTS unless the child is placed there by another school, agency or court order. If the child is placed in the Program by another school, agency or court order, the other school, agency or court shall be responsible for the costs of the Program. The responsibility of TTS to pay for such an education begins when an eligible child is five (5) years of age and enrolled in TTS. The responsibility ends when the child receives a regular high school diploma as discussed below, no longer qualifies for special education, OR the child turns age twenty-two (22), whichever occurs first.

12.08: SERVICES

TTS shall make available the following services through its Special Education Program:

1. Educational programs and services available to other children serviced by the school;

2. Non-academic and extracurricular activities available to other children serviced by the school;
3. Physical education available to other children serviced by the school unless the child is enrolled full time in a separate facility OR the child needs a specially designed physical education program due to the child's IEP or disability(ies).

12.09: NOTICES

The Case Manager shall do their best to communicate all notices in a language and manner (if parent is blind or deaf, Brail or sign) which the parent understands. A minimum of ten (10) days' notice is required when any of the following are going to occur with the student child:

1. Initial evaluation;
2. Initial eligibility determination;
3. IEP review and amendment;
4. Reevaluation;
5. Reevaluation of the eligibility determination;
6. Significant discipline incidents.

Written notice shall include:

1. A description of the action proposed or refused by the School;
2. An explanation of why the School proposes or refuses to take the action and a description of each evaluation procedure, assessment, record, or report the School used as a basis for the proposed or refused action;
3. A statement that the parents of a child with a disability have protection under the procedural safeguards of this part and, if this notice is not an initial referral for evaluation, the means by which a copy of a description of the procedural safeguards can be obtained;
4. Sources for parents to contact to obtain assistance in understanding the provisions of this part;
5. A description of other options considered by the MDT Team and the reason why those options were rejected; and
6. A description of the factors that are relevant to the School's proposal or refusal.

The parent shall receive prior written notice ten (10) days in advance of any Multidisciplinary Team (MDT Team) meeting and prior to any action taken regarding a child on an IEP. The notice shall be conveyed to the parent in a language they can understand (orally or in writing, but when orally notations must be made regarding the oral notification), shall include a description of the proposed action to be taken, and an explanation of why the action is taking place. All of the documentation generated throughout the entire process shall be held in the child's student file confidentially. All communication with the parents (whether oral or written) shall be documented in the student's file especially with regard to attempts to notify of meetings, consents, and additional information regarding the student's needs.

12.10: RE-EVALUATION AND CASE MANAGEMENT

The Case Manager shall keep a list of all special education students and the dates of their next reevaluation are due. This information will be provided to the child's special educator(s). The Case Manager shall notify the parent at least thirty (30) days prior to any reevaluation so the parent may be included in that process as well. The Case Manager will establish the Multidisciplinary (MDT) Team and the decision making process for the reevaluation.

12.11: TRANSITION SERVICES

Every child on an IEP that is the term "transition services" means a coordinated set of activities for a child with a disability that:

1. Is designed to be within a results-oriented process, that is focused on improving the academic and functional achievement of the child with a disability to facilitate the child's movement from school to post-school activities, including postsecondary education, vocational education, integrated employment (including supported employment); continuing and adult education, adult services, independent living, or community participation;
2. Is based on the individual child's needs, taking into account the child's strengths, preferences, and interests; and
3. Includes instruction, related services, community experiences, the development of employment and other post-school adult living objectives, and, if appropriate, acquisition of daily living skills and functional vocational evaluation.

12.12: TRANSFER OF RIGHTS

Beginning not later than one year before the child reaches the age of eighteen (18), the IEP must include a statement that the child has been informed of the child's right, if any, that will transfer to the child on reaching the age of eighteen (18).

12.13: MANIFESTATION DETERMINATION

Within ten school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the School, the parent, and relevant members of the child's MDT Team (as determined by the parent and the School) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:

1. If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
2. If the conduct in question was the direct result of the School's failure to implement the IEP.

A child with a disability who is removed from the child's current placement (a disciplinary change in placement for more than ten (10) consecutive school days where the behavior is

determined not to be a manifestation of the disability) or (a removal for special circumstances related to drugs, weapons or serious bodily injury) must:

1. Continue to receive education services, as provided in 34 CFR 300.101(a) (free appropriate public education (FAPE) requirements), so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and
2. Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.

If the School, the parent, and relevant members of the MDT Team make the determination that the conduct was a manifestation of the child's disability, the MDT Team must either conduct a functional behavioral assessment, unless the School had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child or, if a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; return the child to the placement from which the child was removed, unless the parent and the School agree to a change of placement as part of the modification of the behavioral intervention plan.

12.14: DISCONTINUATION OF SERVICES, GRADUATION AND GRADING

If it is suspected that a student no longer meets the eligibility criteria for the TTS Special Education Program, the reevaluation team, including the parent, must meet to review existing data and arrange to have additional assessments if necessary. If the student is not eligible, the Director must provide the parent with written notice of the decision to discontinue special education services. Services will not be discontinued if the parent files a grievance pursuant to the appropriate provisions of the TTS Policies and Procedures.

TTS's obligation to provide special education services ends when the student meets the school's requirements for the receipt of a high school diploma. The coordinator must provide the parent with a written notice prior to graduation of the discontinuation of special education services. For children who have not yet graduated from high school by meeting the requirements for receipt of a high school diploma, TTS is obligated to provide special education services until the student reaches age twenty-two (22). If a child is turning twenty-one (21), the Director will provide the parent/legal guardian with prior written notice regarding discontinuing special education services, and develop a transition plan.

TTS's obligation to provide special education services also ends when: 1) the student transfers to another school; 2) the parent/legal guardian withdraws the student from school and the parent has made other provision for the student's educational needs, or the student is eighteen (18) years of age, is deemed legally competent, and withdraws from school; and 3) the student drops out of school.

If a parent requests that a student be withdrawn from special education services, the MDT Team must determine whether the student is still eligible for special education services. Written notice must be sent to the parent following the determination. If the MDT Team, including the parent, determines that services need to continue, TTS will provide services unless the parent has invoked the grievance procedure appropriately under the TTS Policies and Procedures.

15.08: FUND RAISING POLICY

All school fund-raisers must have prior advisor and administrative approval. The advisor is responsible for depositing earnings with the Business Technician. This Policy is binding regardless of the policies of other entities regarding fundraising activities.

15.09: TIOSPAYE TOPA PARTICIPATION POLICIES, RULES, AND RESPONSIBILITIES

A Tiospaye Topa Student Athlete and Participant of School Activities:

1. Presents a positive attitude
2. Is aware of the prestigious position of being a role model
3. Sets an example for other students

Students have a responsibility to themselves, Tiospaye Topa and others.

1. **Responsibilities to yourself.** The most important responsibility is to broaden your self-image and develop strength of character. You deserve to get the greatest possible good from your school experience.
2. **Responsibilities to your school.** Tiospaye Topa cannot have a reputation of being an outstanding school unless you do your best in whatever activity you wish to engage. By participating in our activities and by doing your best, you

- will be contributing to the reputation of our school.
3. **Responsibilities to others.** As a member of a team, you share a responsibility to your teammates and coaches. It is also important to remember that the younger students in our school are watching you. They will copy you in many ways. Set good examples for them and do not let them down.

15.10: STUDENT BEHAVIOR AND SPORTSMANSHIP

There are certain standards of behavior that must be upheld by the student participant. The participant's actions both in and out of school reflect the character of the participant as well as the values of the school. It is a privilege to be a member of a team. Tiospaye Topa will hold all participants accountable for their behavior. Tiospaye Topa participants should be honored to be a part of a team and therefore should show pride in themselves and the school by demonstrating exemplary behavior. All participants will be expected to exercise fair play and good sportsmanship during practices, games or contests, regardless of whether they win or lose. They will also be expected to respect the judgment and calls made by the officials.

Tiospaye Topa believes that extra-curricular activities best serve students when the activities are placed into a broad perspective which includes human relationships, character-building, and exemplary conduct, along with competition and participation. Therefore, it is a paramount duty of Tiospaye Topa to encourage the practice of good sportsmanship on the part of teams, cheerleaders, coaches and spectators.

15.11: ABSENTEEISM AND TARDINESS

We believe it is important for participants to give schoolwork their full attention, while also participating in a sport or extra-curricular activity. Part of the challenge of participating is keeping up with academic expectations while balancing the commitment to a team. Participants must attend a full day of school in order to participate in a practice, game or extra-curricular activity that day. Participants must attend a full day of school the Friday before a week-end practice, game or extra-curricular activity.

Exceptions to this exist if a student has a medical appointment, or other family obligation such as attending a funeral or wedding or other situation deemed acceptable by the Principal. Should this be the case, a written note signed by a parent or guardian identifying why the student will miss a portion of the school day **MUST** be presented to the Principal prior to the absence.

15.12: EARLY DISMISSAL FOR GAMES

Attending academic classes is a priority at Tiospaye Topa; however, early dismissals due to traveling distances for away games/events sometimes cannot be avoided. At Tiospaye Topa, we realize that it is difficult for teachers and participants when students miss all or part of a class. Student participants will be held accountable for any missed work or test. It is also the responsibility of the student to communicate to the teacher in advance the need for an early dismissal and to prepare the needed assignments in a timely manner.

15.13: DRIVING

Teams/participants will ride together in Tiospaye Topa vehicles to away events. Participants will be expected to travel together, as it adds to the overall team unity.

Participants may be released from riding a school vehicle home from school-sponsored events, provided they submit to their Coach/Advisor a signed Transportation Consent Form for each designated event.

15.14: STUDENT CONDUCT POLICY

The students are to conduct themselves in a socially acceptable manner when they participate in any activity. Failure to exercise that responsibility during any activity, whether on or off school premises, will result in immediate temporary removal from that activity. The staff person in charge, the Athletic Director, or the Principal may take this action. Any further disciplinary action will be taken only after the Principal and Athletic Director conduct a full investigation. Student due process rights will be adhered to throughout this process and the student may appeal through the chain of due process.

15.15: STUDENT CONDUCT PROCEDURE

All charges of an infraction must be submitted in writing to the Principal or Athletic Director as soon as possible but no later than two (2) school days from the incident. The Administration and Athletic Director, upon receipt of the written notice will investigate the incident. Should the investigation warrant a hearing, a hearing shall be set with the Review Committee. The Review committee will consist of the Principal, the Athletic Director, the Head Coach/Advisor and one other staff member of the student's choice, not involved in the activity. Within five (5) school days of the incident a meeting of the Review Committee, the student and his/her parent/guardian will be held to ascertain the accuracy of the allegations and to determine the consequences to be applied. The final decision will be determined by the Administration. The student's right to due process will be adhered to throughout this procedure in accordance with

25 CFR.

15.16: ACADEMIC REQUIREMENTS

Students participating in extra-curricular activities must meet all the academic eligibility requirements established by the South Dakota High School Activities Association.

15.17: HICKIES

Any student with a visible hickey will not participate in any school-sponsored activity or class trip.

15.18: GENERAL RULES

Infractions of a lesser degree will fall under the Coach/Advisor's discretion. During the first week of practice, each coach/Advisor will post the rules for that specific activity and the consequences for noncompliance. A copy of the rules will be submitted to the Athletic Director and Principal within the first week of practice. The following will be addressed as general rules and Coach's discretion is limited to these five areas:

1. Tardy to practice
2. Missing games or practices
3. Unsportsmanlike attitude at practice, games or contests
4. Unacceptable language
5. Curfew

15.19: DETAILS FOR IMPLEMENTATION

1. Violations accumulate throughout the school year
2. At the beginning of each sport season/extra-curricular activity, the coach/Advisor will give out a copy of the training regulation, explain them, and ask the student to sign a form stating that the student has been informed of the rules and regulations.
3. Tiospaye Topa adheres to the South Dakota High School Activities Association Regulations and Tiospaye Topa students will abide by them.
4. In addition, students will abide by the Tiospaye Topa Student Handbook.

15.20: PARENTS/GUARDIANS OF TIOSPAYE TOPA STUDENT ACTIVITIES PARTICIPANTS/ATHLETES

I will be the positive role model my child needs to become a successful adult. In victory I will

be respectful, humble and thankful. In defeat, I will be courageous, honest and accepting.

I will make sure my child knows I love them in the thrill of the victorious moment and the hours of agony brought on by defeat.

I will accept my child's strengths and weaknesses as they are and focus on helping them to just do their best.

I will let the coaches/advisors do their job of coaching/advising. My role is to support, encourage and motivate progress on a daily, weekly, monthly and yearly basis.

I will teach my child to enjoy the thrill of competition, the fulfillment of being part of it all, and the satisfaction of having done their very best.

I will not re-live my athletic/activity career through my child in any way.

I will not compete with the coach/advisor; together we will be a team to work toward the improvement of my child as a person, student, athlete and participant.

I will not compare and contrast the skills, courage, or attitude of my child, with that of their teammates, opponents, or fellow competitors in a negative manner.

I will temper my reactions towards my child's tales of woe or heroism; we all tend to inflate reality to make it kinder to our personal standing.

I will take time to know my child's coach/advisor in a way that allows me to understand their philosophy, ethics, knowledge, goals, aspirations, and responsibilities.

I will prioritize the agendas that drive my interest in the extra-curricular program or any individual sport; the team agenda comes first-my personal agenda follows.

As a supporting adult and fan of my child:

1. I agree to be a fan and a spectator.
2. I am not the coach/advisor, so I won't coach/advise.
3. I am not an official, so I won't referee
4. I am a host for all visiting teams/participants and will treat them with respect and dignity
5. I am a cheerleader for Tiospaye Topa, not a cheerleader against the opposition.

The school bus is an extension of the school. The bus driver has full authority the same as teachers. Riding to school in a school bus is a privilege and convenience. Students can best show their appreciation by following the rules and regulations. Failure to follow the rules and

regulations may result in forfeiture of the right to school bus transportation.

In case of rule infraction, the bus driver and principal will try to resolve the problem. When any violation occurs the bus driver will fill out an incident report and file it with the principal. The principal will administer disciplinary action as deemed appropriate.
